

### **Garden Metal Stakes**

Garden metal stakes are another kind of plant supports products, these stakes look like bamboo stakes, but they are made of plastic coated steel material, used for all vine plant supports, and they can build up plant trellis and vegetable trellis, such as: flower supports, tomato supports, cucumber plant supports, cowpea plant supports, eggplant supports, grapevine supports, etc. We have a lot of different models, sizes for your choice: diameters are from 8mm to 34mm, length from 60cm to 300cm. And these plastic coated **metal stakes** can be used in moisture condition and have long using life, strong stiffness.

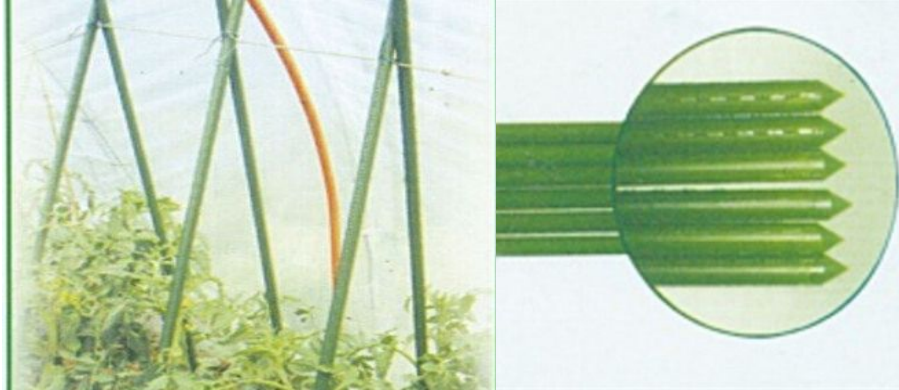

Tomato stakes are made of galvanized iron wire material, and can be with plastic coated for option. These spiral wire stakes are the ideal support especially for tomatoes, also for any other climbing plants. The plant finds support by growing up through the spiral stakes, the supports will keep the plants healthy and upright growing. The material of zinc-coated steel wire has high tensile strength, rustproof, flexible, acid-resistance and alkali-resistance quality.

Colors and finishing: galvanized (zinc coated) silver finishing, If plastic coated, colors can be green, black, yellow, blue, etc any customized colors;

Length: 1.1m, 1.2m, 1.5m, 1.8m, 2.0m etc. Thickness: 5mm ~ 8mm wire.

## 1. PE Coated Metal Stakes

### **Material:**

PE coated steel pipe

### **Quality:**

- \* high strength, strong stiffness;
- \* flex with wind;
- \* longer using life.

### **Color:**

Green color or other color

### **Finish:**

PE coated

### **Packing:**

In cartons or in big bags

50pcs or 100pcs per bundle, then bundles packed on wooden pallet

### **Size:**

diameter 8mm~34mm, length 60cm~270cm

Strictly quality control, we check the product quality and be sure the batch production quality same as the approved.

Check the production loading properly.

Tracking the producing time, taking care of delivery as schedule.

**2. Tomato Stakes Galvanized Wire**

**Material:** galvanized steel wire

**Color:** galvanized metal silver

**Size:** diameter 5mm, 8mm ;

length 70cm, 150cm, 180cm, 200cm

Contact us: [info@jychinasourcing.com](mailto:info@jychinasourcing.com)

TEL: +86 21 5033 6151

<http://www.jlgreenhousesupplies.com/>

**Quality:**

- \* high strength, strong stiffness;
- \* flex with wind, rustproof;
- \* longer using life;
- \* easy to use

**Color:**

galvanized metal silver

**Finish:**

zinc coated

**Packing:**

in cartons or in big bags

10pcs per bundle, then bundles packed on pallet

**Size:**

diameter 5mm, 8mm ; length 70cm, 150cm, 180cm, 200cm

**Applies:**

these spiral stakes are mainly used for tomato supports, and also can be for other vine plants.

**3. Tomato Stakes Plastic Coated Wire**

Contact us: [info@jychinasourcing.com](mailto:info@jychinasourcing.com)
